1/26/81

Dear Harold,

On 1/21 I received a box of 478 pages from the Command Decision's 124-page inventory list. This, according to them, represents a "partial release" of the documents listed on pp. 1-79 of the inventory. They have referred numerous (about 200) documents from this portion of the list to other DOJ components, or other executive agencies. Bear in mind that I did not request every single document listed on their inventory. I do expect some good stuff to come out of the last 1/3 of the inventory groupings. Hopefully, it won't take too much longer.

Of possible interest to you, in case you don't already have this stuff (please advise if you want copies):

Command Decision's 129-11 file --

Document #102 -- letter from Wojcieszak to Niederlehner (DOD) 9/21/67. (Letter of 12/16/63 from John McNaughton to Nicholas Katzenbach should be kept with the restricted W.C. papers

See inventory p. 46 → File 129-11 Sec. DOD #1

Document #103 (undated) - Wojcieszak to files. He advised Marion Johnson to remove McNaughton letter from WC's open files because it has "statements that would be taken as disagreements of fact w/ Commission's ultimate findings, out of context."

" " " #2 ←

Document #350 -- letter from Miller (AAG, Crim Div) to Rankin 12/26/63 enclosing letters from Rebersold of the AEC and McNaughton of DOD.

See inventory p. 64 #11, 12 ←

Also, see inventory #4 #6 and p. 69 #12 ← (Harold, these two enclosed letters are still withheld, having been referred to DOD for advice on release)

Do the above have any bearing on your speech text? Also, have you made a request for whatever secrets the CIA has locked up in its safe?

I just received the carbon copies of the letters you sent to me. Congratulations.

Best,

Roger
